

New Dual Band Class A Solid State Amplifier Models

From 700 MHz To 18 GHz

AR now offers the widest Class A solid state frequency range coverage in a single amplifier housing. Our widest bandwidth designs now covers 700 MHz to 18 GHz frequency range in a dual band configuration. These amplifiers come in two different band split configurations from 700 MHz to 4.2 GHz and 4 to 18 GHz up to 80 watts or from 700 MHz to 6 GHz and 6 to 18 GHz up to 50 watts. Other frequency band splits from 700 MHz up to 8 or 10.6 GHz are also available.

You now have freedom like never before. Just pick the power you need in each band from our 40 available models. We build our lower power dual band amplifiers with flexibility to increase the power levels at a later date, because your needs are constantly changing.

Our dual band amplifiers can be used for multiple applications such as EMC, EW and TWTA replacements, because they are linear, very reliable, have great harmonic rejection, and are extremely load tolerant.
