

Lost Time Is Lost Money

Radiated Immunity Testing Reduced From Days To Hours...

Using Our NEW MultiStar Multi-Tone Tester

EMC test accuracy is critical, but taking too long to test can be costly and it delays your time to market. With the speed of the revolutionary MultiStar Multi-Tone tester, you don't have to dwell on tedious EMC radiated immunity testing anymore.

Maximize your efforts during dwell time by testing multiple frequencies simultaneously, which increases testing speed, gets your product to market faster and eliminates costly chamber bottlenecks.

Mimic real world threats with the ability to expose EUT's to more than one frequency at a time. The MultiStar Multi-Tone Tester meets requirements of IEC 61000-4-3 and all associated standards.

So, if you believe lost time is lost money, don't dwell on it. Ask about our new MultiStar Multi-Tone Tester. Also be sure to ask about our new DSP-based EMI Receiver. Amazing speed. Incredible accuracy.

IEC 61000-4-3 1% step sizes, taking into account dwell time
